## INTRODUCTION

The Sight Word Series is a management system or practice lesson containing 300 basic sight words on 10 sequential levels. Each level is on a separate disk covering 30 sight words. Each disk reinforces words from the previous level. The learner masters the words through frequent exposure in a variety of activities. The words are presented in both isolation and in context.

## BASIC STEPS OF SYSTEM

**MANAGEMENT SYSTEM:** Student will sign on and be tracked by the system as he/she works. As 80% of each phase is successfully completed the program will automatically move the student to the next phase. If below 80% is scored the student will be routed to the same lesson upon signing on again.

**PROGRAM DRILL AND PRACTICE:** The student or teacher will choose a phase to work for drill and practice only. Automatic tracking will not occur.

## RECORD KEEPING/PRINT-OUTS

The system offers excellent record keeping and print-outs. These enable the teacher to plan, do an item analysis and prescribe quickly and effectively. Also excellent for teacher documentation.

1. Pupil/Lesson—Gives score of each lesson, list sight words presented, gives format, stimulus and response on items missed.

### TO START:

1. Turn Monitor On
2. Insert Disk
3. Turn Computer On

Menu will appear

4. Choose letter of option
  - A. Register New Student
  - B. Sign On Existing Student
  - C. Delete Student Record
  - D. Program Practice Lesson
5. After choosing option continue by following directions on screen
  - A. **REGISTER NEW STUDENT**—used when signing a student on the disk management system for the first time.
    1. Press SPACE to continue
    2. Press RETURN if choice incorrect to return to menu
    3. Type in student name
    4. I.D. # will be given (keep in your records)
    5. Press SPACE to continue  
Press RETURN for Menu
    6. Choose Print-Out
      - A. Screen only
      - B. Screen and Printer
      - C. By Pass ResultsPress LETTER of your choice
    - Review of choices will appear. Press SPACE to continue  
Press RETURN for Menu
    7. Program will now proceed to lesson.

**B. SIGN ON EXISTING STUDENT**

1. Press LETTER "B"
2. Press SPACE to continue  
Press RETURN for menu
3. Type in Student I.D. #. Press Return  
(Program will locate student record and list I.D. #, name, last lesson worked, and next lesson to be worked—program automatically routes student to next lesson after 80% success is achieved.)
4. Press SPACE to continue
5. Choose Print-out by pressing Letter of your choice
6. Review of choice will appear. Press SPACE to continue
7. Program will proceed to lesson.

**C. DELETE STUDENT RECORD**

1. Press "C"
2. Press Space to continue
3. Type in Student's I.D. # you wish to delete
4. Press SPACE to DELETE
5. Press RETURN if error made and record should be kept
6. Program will return to deletion option—you may delete another record or return to menu

**D. PROGRAM PRACTICE LESSON**—This program is for drill and practice, student will not be automatically routed.

1. Press 'D'
2. Press SPACE to continue, RETURN to go back to menu
3. Press the LETTER of lesson student is to practice
4. Type name of student
5. Choose LETTER of Print-out choice
6. Press SPACE to continue
7. Program will proceed to lesson

**LESSON COMPLETION:**

Press SPACE to obtain Print-out information  
Program will return to title page after information is given
